DIRTT

STANDARD PULLS

Standard Casework Pull Options

DIRTT Casework offers three standard pull options:

1. Bow pull
2. Rod pull
3. Tab pull

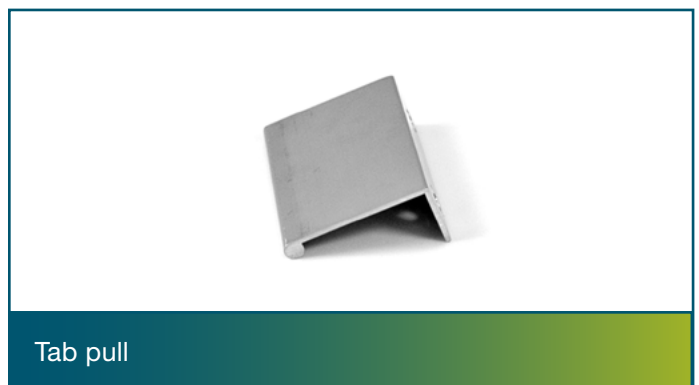

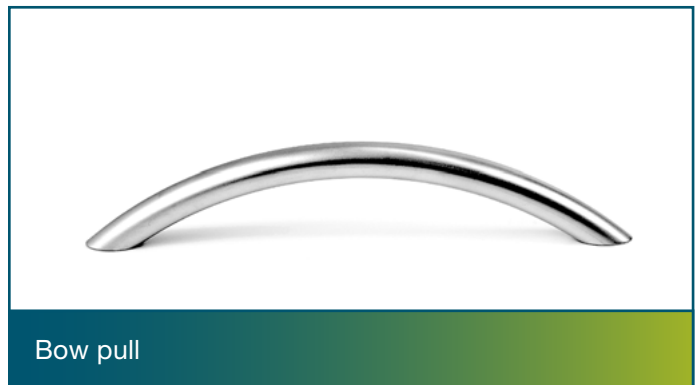

Each pull is offered in multiple widths to accommodate any cabinet size. These options are well suited for many applications, including healthcare, corporate and education.

Availability

All pulls are currently available from all factories. Pulls are shipped factory installed on the interior of the cabinet to prevent any damage from occurring during shipping.

Features

- The soft arch design of the bow pull is ideal for healthcare applications.
- The contemporary design of the rod pull is a stylish solution for java centers, conference rooms and mail rooms.
- The sleek, minimalist design of the tab pull creates a “barely there” pull that is both stylish and functional.

Ordering Information
