DIRTT WALL

Requirements

- 17760_BATS Clips for installation
- Back-to-back Madonnas
- Madonnas placed 2 ¾" (70mm) below TOP of shelf
 - E.g.: if the top of the shelf is 72" (1.83m) high, specify the Madonna's at 69 ¼" (1.76m) above finished floor (AFF)
- Wall panel cutouts for the brackets
 - Cannot be installed on glass or tackable fabric panels

NOTE: For this application to be successful, the walls and casework must work together and must be ordered at the same time.

BRACKETS

Assembly

56876 _Top Cinching Bracket	Powder Coat Black DP13
56484_Bottom Cinching Bracket	Powder Coat Black DP13
56568_Tube Catch	Powder Coat Black DP13
210187_Floating Shelf Tube	Powder Coat Black DP13— Cut to length based on shelf depth

NOTE: The quantity of brackets is determined by the width of the shelf. Shelf bracket (QTY 1) is required for every 24" (610mm) with a minimum of shelf brackets (QTY 2 per shelf).

INSTALLATION

[How to Install Floating Shelves Video](#)

LED OPTIONS

Integrated LED strip lighting can be added to the underside of the shelf.

Requirements

LED Power Pack

Refer to [Casework Integrated LED System Solution Guide](#) for additional information on LED lighting.

Power Cord Management

- Placed in adjacent cabinet (if local code permits)
- Within DIRTT wall panels

NOTE: Power cord management should be coordinated with the local installation team and reviewed by the local inspector.

DIMENSIONS + DETAILS

SHELF

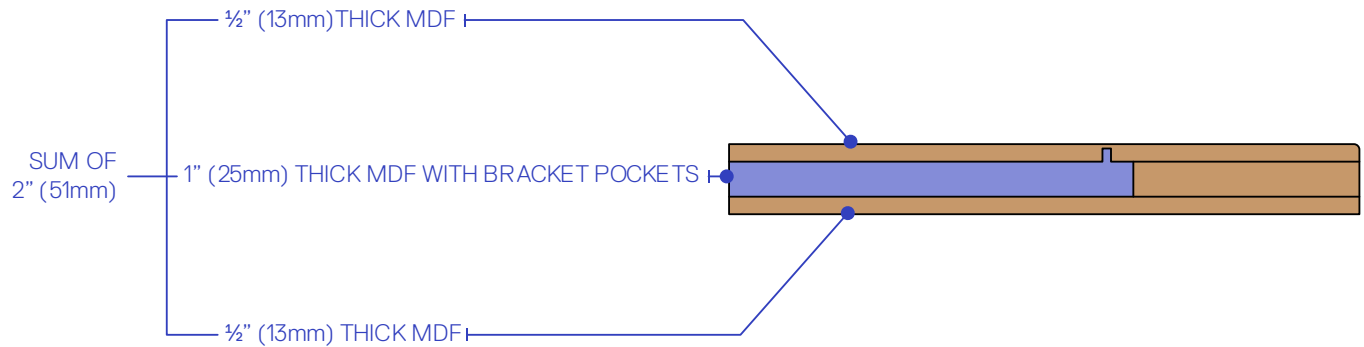

Minimum Shelf Depth	9" (229mm)
Maximum Shelf Depth	12" (305mm)

SHELF MATERIAL

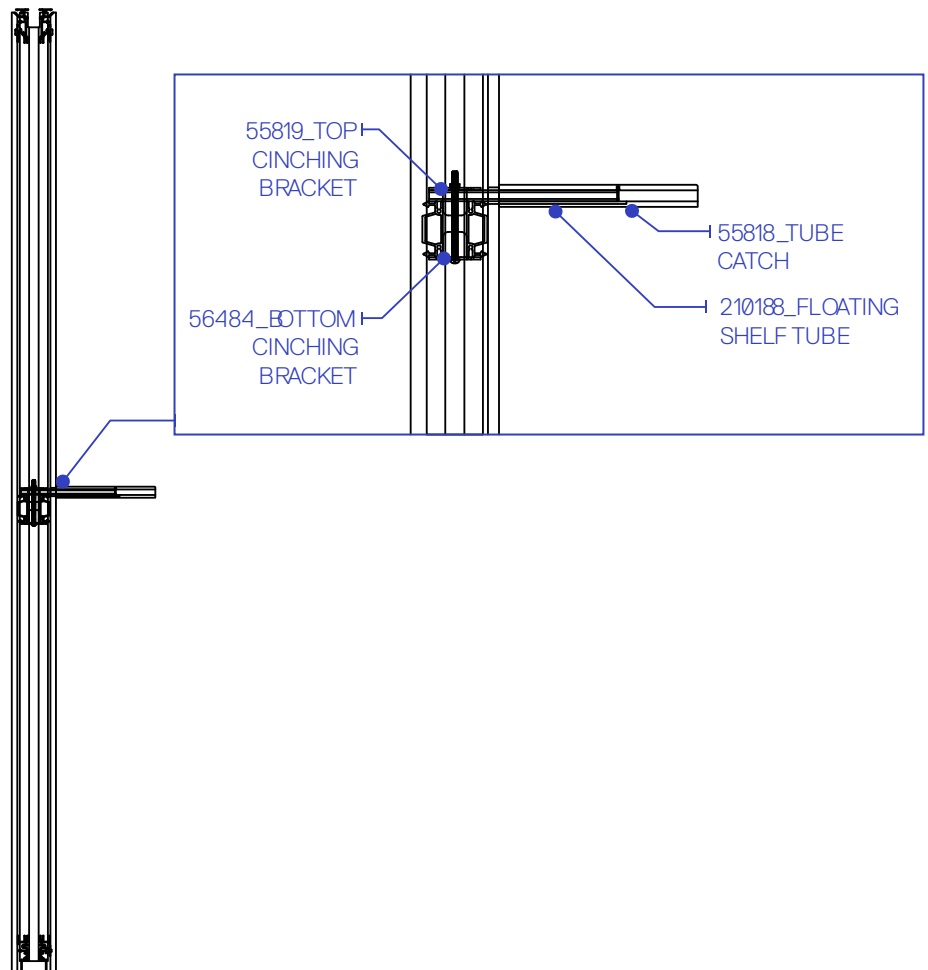

Constructed with three substrates laminated together.	
Top/Bottom Panel	½" (13mm) thick MDF
Middle panel	1" (25mm) thick MDF
Front Edge	Square eased edge
