

COMPONENTS & MATERIALS

The DIRTT Power Strip with Whip offers integrated Alternating Current (AC) power within a convenient enclosure. It can be mounted vertically or horizontally inside a DIRTT Wall. It is an option for powering the Passive Optical Network (PON) components that reside in the DIRTT frame. The Power Strip can also be located inside an enclosure such as a floor box.

The assembly is available in 3 wire shared neutral 4/2/2 and 3 wire independent neutral 3/3/2 configurations.

General Specifications

- 20 amp 120V 60Hz
- 4 or 6 power outlets
- UL Listed
- 18 gauge steel construction with powder coated crinkle black finish
